Performance measurements

- Often a challenge for the implementation of a strategy

Progress in Kópavogur

- We will form indices to watch the progress of the implementation of the SDGs. The indicators forming the indices will be selected from a pool of indicators that we have been working on or other data that we find relevant.
- **Mælkó** - An information system that is an important tool for measurements and indices.

Child friendly city index

Core principles of the UN's Convention of the rights of the child
