Nordregio Forum - Policy workshop

Overcoming the obstacles to the competence mobility

Wednesday, 23 November @16:30-17:30

In the past seven decades, there have been many attempts to boost the crossborder labour mobility in the Nordics. However, less than 2% of Nordic citizens live in a different Nordic country than the one in which they were born. What are the hindering factors of working in another Nordic country and what are the potential solutions? We welcome policy makers, labour mobility and cross-border experts, as well as researchers to join an experiential policy workshop. During the workshop, participants will have an opportunity to jointly develop cross-border labour market mobility solutions through the simulated obstacle analysis.
